

PROMOTION AND SALES DEVELOPMENT SERVICES IN DIGITAL ENVIRONMENT

Service for **consolidating, positioning, and expanding** businesses in the digital market through comprehensive strategies for online promotion and sales development.

When is the ideal time to integrate a Digital Promotion and Sales Development solution?

#1 STAGNANT SALES

Your company is "stuck" in sales, with no sustained growth, and market penetration is costing more than projected.

#2 LAUNCHING NEW PRODUCTS OR SERVICES ONLINE

You've already invested resources in research and development for solutions targeting your market. By partnering with **BST** as your strategic ally, you place the success of new products or services in professional and highly experienced hands within the digital sector.

#3 OPERATIONAL CONSOLIDATION

Your company is ready to grow and capture a larger market share. It's time to organize and systematize your operations to strengthen your competitive position and accelerate business growth.

#4 CONTROLLED EXPANSION

Your company is in a growth phase, seeking to invest assets to generate higher dividends while maintaining control over core operations.

BST GLOBAL TRADE CORPORATION

Our goal is to become a leading entity in promoting and developing marketing strategies in the digital environment.

Our approach is tailored to any type of project, whether for products or services. **BST** leverages its expertise in business management to develop strategies that deliver concrete and sustainable results, always aiming to maximize value for our clients and partners.

METHODOLOGY

Our **Commercial Development Methodology** on the Internet aims to enhance our clients' visibility and market accessibility, as well as establish strong management through effective digital platforms (ERP) and the transfer of targeted digital marketing strategies.

We **consolidate, position, and expand** our clients' presence in the digital market based on **five pillars of business management and process automation**, creating a strong connection with their target market.

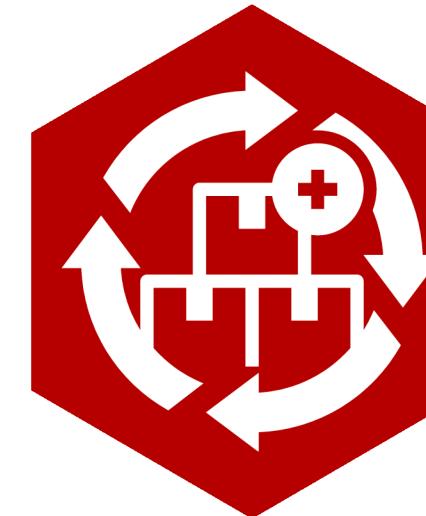

Digital Business Model

Analysis of the current model and marketing characteristics.

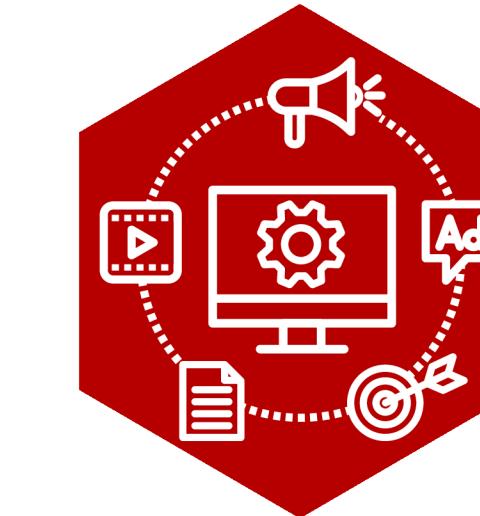

Customer Relations

Evaluation of customer support and current marketing tactics.

Inventory Control

Implementation of an inventory control system designed to minimize losses and maximize operational efficiency.

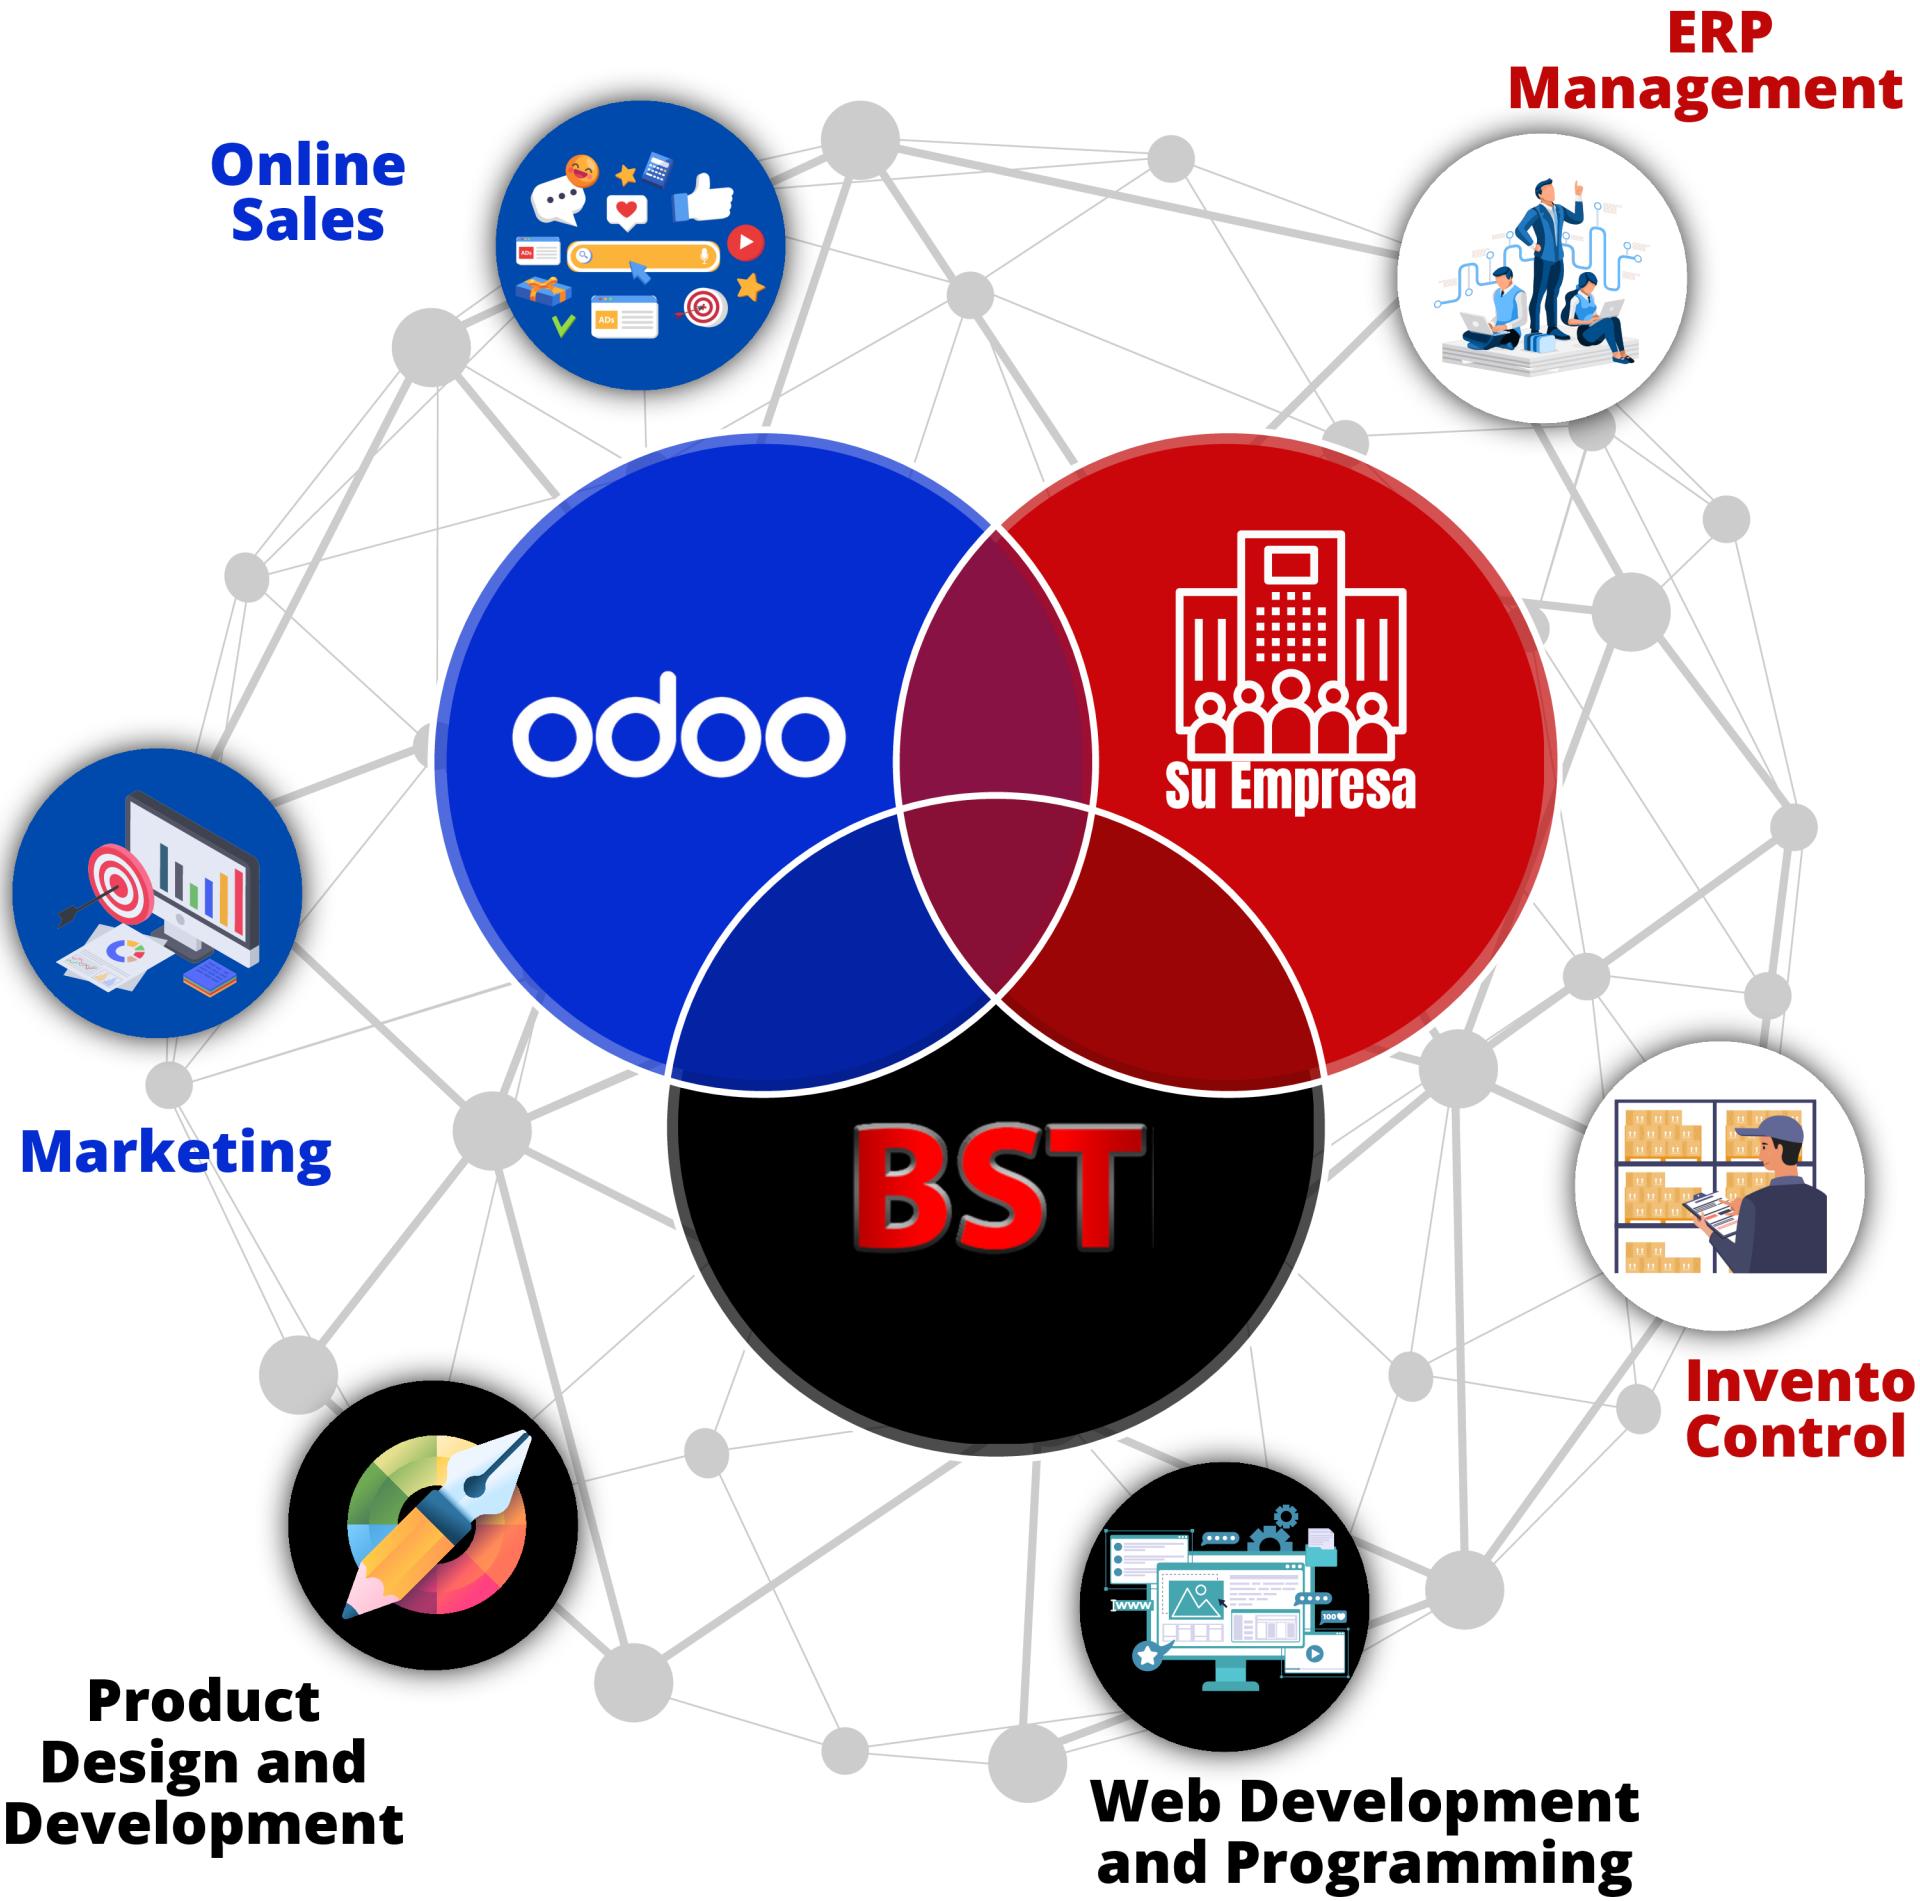

Web Production

Analysis of trends and competition to adjust digital image and content.

Digital Launch

Execution of online launch campaigns with defined resources and plans.

“We consolidate efforts into a single business solution so your company can focus on maximizing the value of its operations.”

WORKFLOW

Before launching any campaign or implementing a solution, we conduct an in-depth analysis of the target market and the specific needs of the end-user.

We identify opportunities and threats, define a clear strategy based on the analysis of collected information, and align it with the client's strategic objectives.

We design the digital marketing and automation strategy that best suits the business, configuring all the necessary digital tools to ensure a successful implementation.
